

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: New Hampshire

METHODS FOR TREATMENT OF RESOURCES FOR INDIVIDUALS
WITH INCOMES RELATED TO FEDERAL POVERTY LEVELS

(Do not complete if you are electing more liberal methods under the authority of section 1902(r)(2) of the Act instead of the authority specific to Federal poverty levels. Use Supplement 8b for section 1902(r)(2) methods.)

New Hampshire elects to apply no resource test for the poverty level related groups as allowed in section 1902(1) of the Social Security Act.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: NEW HAMPSHIRE

METHODOLOGIES FOR DEEMING OF RESOURCES FOR CHILDREN
BORN ON OR AFTER OCTOBER 1, 1983

a. Categorically Needy Medical Assistance

If the child is applying for or receiving categorically needy medical assistance, AFDC methodologies are used to count parental resources. Parental resources are deemed to the child and added to the child's countable resources. The result is compared to the categorically needy income limit for the appropriate group size for the number of children born on or after October 1, 1983 in the assistance group.

b. Medically Needy Medical Assistance

The following methodology is used when deeming resources from parent to child when a child is applying for or receiving medically needy medical assistance as a child born on or after October 1, 1983.

1. Deemed resources are added to the child's resources and compared to the medically needy resource limit for the appropriate group size for the number of children born on or after October 1, 1983 in the assistance group.
2. With the exception of the resources noted below which are specifically exempt from deeming for medically needy medical assistance, AFDC methodologies are used to determine and deem countable resources of the parent or parents:
 - (a) Any vehicle that is necessary for employment, or for training leading to employment of the parent(s); and
 - (b) Any life insurance policies that the parent(s) own on themselves or on children other than the child born on or after October 1, 1983.
3. Deemed resources are reduced by an amount equal to 50% of the "Poverty Income Guidelines for all States (except Alaska and Hawaii) and the District of Columbia" as published annually in the Federal Register by the Secretary of the U.S. Department of Health and Human Services, for the family size not including the child or children born on or after October 1, 1983.
4. For purposes of reducing deemed resources, changes in the Poverty Income Guidelines are effective on the first day of July following publication of the Poverty Income Guidelines in the Federal Register.

METHODOLOGIES FOR DEEMING OF RESOURCES FOR CHILDREN WITH SEVERE DISABILITIES

a. Categorically Needy Medical Assistance

If the child is applying for or receiving categorically needy medical assistance, AFDC methodologies are used to count parental resources. Parental resources are deemed to the child and added to the child's countable resources. The result is compared to the categorically needy income limit for the appropriate group size for the number of children with severe disabilities in the assistance group.

b. Medically Needy Medical Assistance

The following methodology is used when deeming resources from parent to child when a child is applying for or receiving medically needy medical assistance as a child with severe disabilities.

1. Deemed resources are added to the child's resources and compared to the medically-needy resource limit for the appropriate group size for the number of children with severe disabilities in the assistance group.
2. With the exception of the resources noted below which are specifically exempt from deeming for medically needy medical assistance, AFDC methodologies are used to determine and deem countable resources of the parent or parents:
 - (a) Any vehicle that is necessary for employment, or for training leading to employment of the parent(s);
 - (b) Any vehicle that is necessary for medical transportation of the child with severe disabilities; and
 - (c) Any life insurance policies that the parent(s) own on themselves or children other than the child with severe disabilities.
3. Deemed resources are reduced by an amount equal to 50% of the "Poverty Income Guidelines for all States (except Alaska and Hawaii) and the District of Columbia" as published annually in the Federal Register by the Secretary of the U.S. Department of Health and Human Services, for the family size not including the child or children with severe disabilities.
4. For purposes of reducing deemed resources, changes in the Poverty Income Guidelines are effective on the first day of July following publication of the Poverty Income Guidelines in the Federal Register.
